# GloBug 4-Spot Light Tower

The GloBug 4-Spot Light Tower is the ideal portable lighting source when compact lights are required. The small footprint allows transportation of several units in small delivery vehicles. No tools are required to adjust the lamps for quick deployment. Consider the GloBug 4-Spot as an alternative solution to the traditional tow-behind light tower.

Model	GB43SC
Rated Voltage	115V
Starting Current	18.6A
Operating Current	18.6A
Lamp Type	Metal Halide
No. of Bulbs / Watts	4 bulbs @ 400W
